

```
package programmingIilap;
import java.util.Scanner;
public class ParseInts {

    public static void
main(String[] args) {
    int val, sum=0;
    Scanner scan = new
Scanner(System.in);
    String line;
    System.out.println("Enter a
line of text");
    Scanner scanLine = new
Scanner(scan.nextLine());
    while (scanLine.hasNext()) {
    try {
        val =
Integer.parseInt(scanLine.next());
        sum += val;
    }
    catch (NumberFormatException e)
{
        System.out.println("Worn
input...");
    }
    }
    System.out.println("The sum of
the integers on this line is "+sum);
}

}
